

Public Forum Meeting Agenda

Tazewell & Woodford Counties Multi-Jurisdictional Multi-Hazard Mitigation Advisory Committee

**October 19, 2023
4 p.m. to 6 p.m.
East Peoria City Hall
401 West Washington Street, East Peoria**

- I. Welcome
- II. Plan Review & Summary
- III. Availability of Draft Plans & Public Comment Period
- IV. Plan Adoption
- V. Potential Mitigation Project Funding Sources
- VI. Questions/Comments

Meeting Minutes

Tazewell & Woodford Counties Multi-Jurisdictional Multi-Hazard Mitigation Advisory Committee

July 25, 2023

1:30 p.m.

East Peoria City Hall

401 West Washington Street, East Peoria

Committee Members

Comm. Development
Tremont, Village of
Tri-County Reg. Planning Commission
Washington, City of
Woodford County
EMA
American Environmental Corp.

Welcome

Reema Abi-Akar, Senior Planner of the Tri-County Regional Planning Commission, welcomed attendees. She turned the meeting over to Andrea Bostwick, American Environmental Corporation (AEC), who opened the meeting.

Handout materials were distributed to each member in attendance. Andrea provided a brief recap to reorient Committee Members as to what has been accomplished so far.

Tornado Vulnerability Analysis

Andrea then began the tornado vulnerability analysis discussion by noting that analysis estimates future potential damages in terms of dollar loss to residences, including contents, for each participating jurisdiction based on FEMA acceptable formulas. The potential damages were calculated on the magnitude most likely to be encountered, not on a worst-case event.

Since 1950, 67 verified tornadoes have occurred in Tazewell County, and 48 verified tornadoes have occurred in Woodford County. While occurring less frequently than severe storms, severe winter storms and floods, tornadoes have caused at least \$978.2 million in property damages in Tazewell County, and \$30.6 million in property damages in Woodford County.

Using information from the 67 verified tornadoes in Tazewell County and the 48 verified tornadoes in Woodford County, damages were calculated based on an “average” tornado.

The average tornado in Tazewell County impacts approximately 0.17 square miles, whereas the average tornado in Woodford County impacts approximately 0.15 square miles. She noted that the area impacted by the average tornado decreased slightly for each County from the previous Plan.

Housing densities were calculated from U.S. Census Bureau information for each of the participating jurisdictions. This information, along with a set of assumptions were used to estimate the number of vulnerable residential structures. Potential dollar losses were then calculated for these vulnerable residential structures using the provided tax assessment values and an additional assumption about the degree of damage sustained by the structures and their contents.

Potential dollar losses caused by an average-sized tornado in Tazewell County to residences and their contents would be expected to exceed at least \$17 million in any of the participating municipalities. Losses ranged from \$17.8 million in East Peoria to \$56 million in Washington. For Woodford County, dollar losses caused to residences and their contents by an average-sized tornado would be expected to exceed at least \$8.9 million in any of the participating municipalities. These losses ranged from \$8.9 million in Minonk up to \$50.8 million in Germantown Hills.

Potential dollar losses by township in Tazewell County would be expected to range from \$75,750 in Boynton Township to \$16.1 million in Pekin Township. For Woodford County, losses by township would be expected to range from \$115,985 in Linn Township up to \$4 million in Worth Township. Andrea noted that the damage figure for the most populated townships would only be reached if the tornado's path included a portion of a major municipality.

Risk Priority Index Exercise Results

Andrea then presented the results of the Risk Priority Index Exercise that was conducted at the April 25, 2023 meeting. She provided the Committee with a brief recap on what the Risk Priority Index is and how it can help participants determine which hazards present the highest risk and therefore which ones to focus on when formulating mitigation projects and activities.

Based on the Committee's responses, in Tazewell County, tornadoes scored the highest, followed by thunderstorms with damaging winds, floods, and severe winter storms. For Woodford County, tornadoes also scored highest, followed by floods and then by thunderstorms with damaging winds. The hazards that scored the lowest in Tazewell County included earthquakes, terrorism, and dam failures; for Woodford, the lowest three were earthquakes, landslides, and mine subsidence.

Mitigation Project Submittal & Action Tables

Committee members were then asked to review the Mitigation Action Tables containing the descriptions of the mitigation projects and activities. Andrea and Callie Smith of AEC moved throughout the room to discuss questions with committee members. Andrea advised Committee members who wished to add additional projects to provide them to her as soon as possible, and no later than September 1st.

Andrea explained that the information in the draft Mitigation Action Tables handout was prepared by AEC using the lists of mitigation projects and activities provided by the participation jurisdictions. Participants were reminded that this is a list of projects and activities they would like to see accomplished if the money becomes available. Also, for a jurisdiction to be eligible for a project, it must be on its list.

Since these are mitigation plans, some projects were either removed or not included if they were not considered mitigation. Projects associated with emergency preparedness/response, recovery, and maintenance will not be included in the Plans.

Public Forum and Adoption

The final Committee meeting will be conducted as an open-house style public forum to present the draft Plans for review and comment. Paper copies of the draft Plans will be available for review at the meeting and posted online on the Planning Commission's website. Additionally, the Planning Commission will also have hard copies available for review at their office. There will be a two-week public comment period following the public forum.

Unless otherwise specified, Committee members will receive an electronic copy of the draft Plans to make available for public comment.

Once the comment period is over, any comments received will be incorporated into the Plans and submitted to IEMA/FEMA. Following IEMA and FEMA review, any edits requested will be made and then FEMA will issue Approval Pending Adoption letters. At this point an email will be sent to the participating jurisdictions, along with a copy of a model adoption resolution, asking them to formally adopt the Plans by resolution. A copy of the executed resolution should then be provided to AEC. Once all the adoption resolutions are received, Andrea will submit them to IEMA and FEMA. FEMA will then issue the Final Approval letters starting the clock for the five-year update.

Plan Maintenance and Update

Andrea described the Plan maintenance and update commitments detailed in a draft of the Plan Maintenance and Update section provided in the meeting handouts for review by the Committee. The Plans will be monitored and evaluated on an annual basis by a Plan Maintenance Subcommittee, which will be made up of the participating jurisdictions, the Regional Planning Commission, and key members of the Planning Committee. The Planning Commission will send out Plan Maintenance Checklists to each of the participating jurisdictions who will be responsible for providing information to the Subcommittee. This information will include: the status of their mitigation actions; any hazard-related damages to critical facilities and infrastructure; the adoption of any new plans, policies, or regulations; and any significant changes in development. The Subcommittee will also evaluate the Plans to determine their effectiveness at achieving their stated purpose and goals. Participants can also add new mitigation actions during the annual monitoring phase or by contacting the Planning Commission.

The Planning Commission will then prepare an annual progress report detailing the results of the annual monitoring and evaluation period and provide copies to the Subcommittee. Any modifications or additions to the mitigation project lists will require

an update of the Mitigation Strategy and a resubmittal of the Plans to IEMA and FEMA for reference.

At least once every five years, the Plans must be reviewed, revised, and resubmitted to IEMA/FEMA for the participating jurisdictions to remain eligible for mitigation project funds. At the five-year update, any jurisdiction that is not already part of these Plans and who wants to become part of the updated Plans may do so. New jurisdictions must supply the same information that all the current jurisdictions supplied.

What Happens Next?

Public Forum

The final Committee meeting will be conducted as an open-house style public forum where the draft Plans will be presented for review and comment.

The public forum will be held on:

Thursday, October 19, 2023

4 p.m. – 6 p.m.

East Peoria City Hall

401 West Washington Street, East Peoria

Public Comment

With no additional questions or comments, Andrea adjourned the meeting.

**TAZEWELL COUNTY
MULTI-JURISDICTIONAL
MULTI-HAZARD MITIGATION PLAN**

**WOODFORD COUNTY
MULTI-JURISDICTIONAL
MULTI-HAZARD MITIGATION PLAN**

PUBLIC FORUM SUMMARY HANDOUT

OCTOBER 19, 2023

4:00 P.M. – 6:00 P.M.

Each year natural hazards (i.e., severe thunderstorms, tornadoes, severe winter storms, flooding, etc.) cause damage to property and threaten the lives and health of Tazewell County and Woodford County residents. Since 1973, Tazewell County has been a part of 11 federally-declared disasters and experienced at least \$1.0 billion in recorded property damages and at least \$45.1 million in crop damages within the County. Since 1974, Woodford County has been a part of 11 federally-declared disasters and experienced at least \$84.9 million in recorded property damages and at least \$31.7 million in crop damages within the County.

Tazewell County

In the last 10 years alone (2013 – 2022), there have been 87 thunderstorms with damaging winds, 42 excessive heat events, 34 severe storms with hail one inch in diameter or greater, 28 extreme cold events, 25 riverine flood events, 22 flash flood events, 22 severe winter storms, 12 tornadoes, 3 landslides, and one drought verified in the County.

Woodford County

There have been 54 thunderstorms with damaging winds, 42 excessive heat events, 28 extreme cold event, 27 riverine flood events, 24 severe winter storms, 19 flash flood events, 15 severe storms with hail one inch in diameter or greater, 8 tornadoes, and one drought verified in the County in the last 10 years alone (2013 – 2022).

While natural hazards cannot be avoided, their impacts can be reduced through effective hazard mitigation planning.

What is hazard mitigation planning?

Hazard mitigation planning is the process of determining how to reduce or eliminate property damage and loss of life from natural and man-made hazards. This process helps a county, and its participating jurisdictions, reduce their risk by identifying vulnerabilities and developing mitigation actions to lessen and sometimes even eliminate the effects of a hazard. The results of this process are documented in a multi-hazard mitigation plan.

Why prepare updated multi-hazard mitigation plans?

By preparing and adopting updated multi-hazard mitigation plans, the counties and participating jurisdictions become or remain eligible to apply for and receive federal hazard mitigation funds to implement mitigation actions identified in the plans. These funds, made available through the Disaster Mitigation Act of 2000, can help provide local government entities with the opportunity to complete mitigation projects that would not otherwise be financially possible.

**TAZEWELL COUNTY
MULTI-JURISDICTIONAL
MULTI-HAZARD MITIGATION PLAN**

**WOODFORD COUNTY
MULTI-JURISDICTIONAL
MULTI-HAZARD MITIGATION PLAN**

Who participated in the update of the Tazewell County and Woodford County Multi-Jurisdictional Multi-Hazard Mitigation Plans?

- | | | |
|---|---|--------------------------------|
| ❖ Creve Coeur, Village of | ❖ Pekin, City of | ❖ El Paso, City of |
| ❖ East Peoria, City of | ❖ Pekin Park District | ❖ Eureka, City of |
| ❖ East Peoria Community High School District #309 | ❖ Tremont, Village of | ❖ Germantown Hills, Village of |
| ❖ East Peoria Drainage & Levee District | ❖ Tri-County Regional Planning Commission | ❖ Minonk, City of |
| ❖ Morton, Village of | ❖ Washington, City of | ❖ Roanoke, Village of |

How were the updated Plans developed?

The two Plans were developed through the Tazewell & Woodford Counties Multi-Jurisdictional Multi-Hazard Mitigation Advisory Committee. The Committee included representatives from each participating jurisdiction, as well as agriculture, education, emergency services, planning, social services, and utilities. The Planning Committee met four times between January 2023 and October 2023.

Which hazards are included in the updated Plans?

After reviewing the risk assessment, the Planning Committee chose to include the following hazards in the Plans:

Natural Hazards

- | | |
|--|---|
| ❖ severe storms (thunderstorms, hail, lightning) | ❖ drought |
| ❖ floods (riverine & flash) | ❖ landslides |
| ❖ severe winter storms (snow & ice) | ❖ earthquakes |
| ❖ excessive heat | ❖ mine subsidence |
| ❖ extreme cold | ❖ levee failures (Tazewell County Only) |
| ❖ tornadoes | ❖ dam failures |

Man-Made hazards

- ❖ hazardous substances (generation, transportation, and storage/handling)
- ❖ waste disposal
- ❖ hazardous material incidents
- ❖ waste remediation
- ❖ nuclear incidents
- ❖ terrorism

What is included in the updated Plans?

The updated Plans are divided into sections that cover the planning process; the risk assessment; the mitigation strategy, including the jurisdiction-specific mitigation action lists; and plan maintenance and adoption. The majority of the Plans are devoted to the risk assessment and mitigation strategy.

The risk assessment identifies the natural hazards that pose a threat to the counties and includes a profile of each natural hazard, which describes the location and severity of past occurrences, reported damages to public health and property, and the likelihood of future occurrences. It also provides a vulnerability analysis that estimates the potential impacts each natural hazard would have on the health and safety of the residents of each county, as well as the buildings, critical facilities, and infrastructure in each county.

**TAZEWELL COUNTY
MULTI-JURISDICTIONAL
MULTI-HAZARD MITIGATION PLAN**

**WOODFORD COUNTY
MULTI-JURISDICTIONAL
MULTI-HAZARD MITIGATION PLAN**

The key component of the mitigation strategy is a list of the projects and activities developed by each participating jurisdiction to reduce the potential loss of life and property damage that results from the natural hazards identified in the risk assessment. These projects and activities are intended to be implemented *before* a hazard event occurs.

What happens next?

Any comments received at today's public forum and during the public comment period will be reviewed and, where applicable, incorporated into the draft Plans before they are submitted to the Illinois Emergency Management Agency and Office of Homeland Security (IEMA-OHS) and the Federal Emergency Management Agency (FEMA) for review. Once IEMA-OHS and FEMA have reviewed and approved the Plans, each Plan will be presented to appropriate County and participating jurisdictions for formal adoption. After adopting their Plan, each participating jurisdiction will be eligible to apply for federal mitigation funds and can begin implementing the mitigation actions identified in their Plan.

(NAME of JURISDICTION), Illinois

Resolution No. _____

A Resolution of (NAME of JURISDICTION) adopting the
2023 (NAME) County Multi-Jurisdictional Multi-Hazard Mitigation Plan

WHEREAS the (NAME of JURISDICTION BOARD/COUNCIL) recognizes the threat that natural and man-made hazards, including severe thunderstorms, severe winter storms, floods, and tornadoes among others, pose to people and property within (NAME of JURISDICTION); and

WHEREAS the (NAME of JURISDICTION) has prepared a multi-hazard mitigation plan, hereby known as the 2023 (NAME) County Multi-Jurisdictional Multi-Hazard Mitigation Plan in accordance with federal laws, including the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended; the National Flood Insurance Act of 1968, as amended; and the National Dam Safety Program Act, as amended; and

WHEREAS the 2023 (NAME) County Multi-Jurisdictional Multi-Hazard Mitigation Plan identifies mitigation goals and actions to reduce or eliminate long-term risk to people and property in (NAME of JURISDICTION) from the impacts of future hazards and disasters; and

WHEREAS adoption by the (NAME of JURISDICTION) demonstrates its commitment to hazard mitigation and achieving the goals outlines in the 2023 (NAME) County Multi-Jurisdictional Multi-Hazard Mitigation Plan.

NOW THEREFORE, BE IT RESOLVED BY THE (NAME of JURISDICTION), ILLINOIS, THAT:

The (NAME of JURISDICTION BOARD/COUNCIL) adopts the 2023 (NAME) County Multi-Jurisdictional Multi-Hazard Mitigation Plan and agrees to participate in the annual maintenance and evaluation of the plan.

ADOPTED by a vote of ___ in favor and ___ against, and ___ abstaining, this ____ day of _____, 2023.

Plan Maintenance Checklist

We are in the process of conducting our annual evaluation/status update for our Multi-Jurisdictional Hazard Mitigation Plan. Please review the following tasks and complete and return this checklist along with the necessary forms. If you have any questions, please let us know.

Jurisdiction: _____
Prepared By: _____
Title: _____ Date: _____

TASK 1: DAMAGE INFORMATION

Has your jurisdiction sustained any natural hazard-related damages to critical facilities and infrastructure within the last year?

Yes No Don't Know

If Yes, please complete and return the attached critical facilities damages questionnaire.

TASK 2: STATUS OF EXISTING PROJECTS/ACTIVITIES

Please look over the attached Mitigation Action Tables for your jurisdiction and determine whether any of the mitigation projects/activities listed have been completed or are in progress (in the planning stages.)

Does your jurisdiction have any mitigation projects/activities in progress (in the planning stages) or completed?

Yes No

If Yes, please fill out and return the attached Mitigation Action Progress Report for each project/activity that has been completed or is in progress.

Has your jurisdiction undergone any changes in priorities within the last 12 months that would impact the implementation of the listed mitigation projects/activities?

Yes No

If yes, please detail the changes in priorities.

Plan Maintenance Checklist

TASK 3: IDENTIFICATION OF NEW PROJECTS/ACTIVITIES

Are there any new mitigation projects/activities your jurisdiction would like to see add to the Plan? (Remember, only projects included in the Plan are potentially eligible for federal mitigation projects funding.)

Yes No

If yes, please complete and return the attached New Mitigation Project Form.

TASK 4: JURISDICTION EVALUATION

Have there been any significant changes in development in your jurisdiction within the last 12 months (i.e. expansion of existing businesses, siting of new businesses, new subdivision development, or expansion of existing subdivisions, demolition of businesses/residents to create green spaces, etc.)

Yes No

If yes, please specify the type of development changes.

Has your jurisdiction adopted any new/updated policies, plans, regulations, or reports (i.e., comprehensive plans, building codes, zoning ordinance, etc.) that could be incorporated into this Plan?

Yes No

If yes, please provide the name of the policy, plan, regulation, or report and its purpose.

Were any components of the Hazard Mitigation Plan (i.e., mitigation actions, vulnerability analyses, etc.) integrated into any new/updated policies, plans, regulations, or reports (i.e., comprehensive plans, building codes, zoning ordinance, etc.)?

Yes No

If yes, please provide the name of the policy, plan, regulation, or report and what component(s) of the hazard mitigation plan were integrated.

Plan Maintenance Checklist

TASK 4: JURISDICTION EVALUATION CONTINUED...

Do any new critical facilities or infrastructure need to be added to your jurisdiction's Critical Facilities Survey?

- Yes No

If yes, please provide the name and address of the facility.

What are your plans for sharing information on the Plan and its annual progress with your jurisdiction and constituents (i.e., informal presentation at board/council meeting, posting update to social media or website, etc.)?

Critical Facilities Damage Questionnaire

Supplemental information about **damages to critical infrastructure/facilities** (i.e., government buildings, schools, communication towers and radio equipment, water & sewer treatment facilities, hospitals, medical centers, etc.) that have **taken place** in the participating jurisdictions and County is needed for the risk assessment/vulnerability analysis portion of the Plan. If you could take a moment and think about the critical infrastructure damages caused by past natural hazard occurrences and provide any available information in the form below, it would be greatly appreciated.

Please complete one record for each natural hazard event that damaged a critical facility. Do not combine multiple events on one record. Additional forms are located on the back of this page. Please return the completed form(s) to Andrea or Zak. Thank you!

Jurisdiction: _____

Prepared By: _____ Date: _____

1.) **Date of Event** (month/day/year if possible): _____

2.) **Critical Facility Damaged:** _____

3.) **Type of Hazard:**

- | | | |
|--|---|--|
| <input type="checkbox"/> thunderstorm
(straight-line winds) | <input type="checkbox"/> tornado | <input type="checkbox"/> landslide |
| <input type="checkbox"/> hail | <input type="checkbox"/> snow storm | <input type="checkbox"/> sinkhole |
| <input type="checkbox"/> lightning strike | <input type="checkbox"/> ice storm | <input type="checkbox"/> mine subsidence |
| <input type="checkbox"/> heavy rain | <input type="checkbox"/> extreme cold | <input type="checkbox"/> earthquake |
| <input type="checkbox"/> flood | <input type="checkbox"/> drought | <input type="checkbox"/> levee failure |
| | <input type="checkbox"/> excessive heat | <input type="checkbox"/> dam failure |

4.) **Types of Damages:** _____

5.) **Estimate of Damages:** \$ _____

Mitigation Action Progress Report

As part of the Plan Maintenance “monitoring” phase, the implementation status of each project and activity listed in the Plan for the participating jurisdictions needs to be identified.

- 1) Please review the Mitigation Action Tables provided for your jurisdiction to determine whether any of the projects/activities listed have been **“Completed”** or are **“In Progress”** (in the planning stages.)
- 2) For each project or activity that is **“Completed”** or **“In Progress”**, please fill out the following Progress Report.

Jurisdiction: _____

Prepared By: _____

Title: _____ Date: _____

Progress Report Period	From Date:	To Date:
Project/Activity Description		
Responsible Agency		
Project Status	<input type="checkbox"/> In Progress <ul style="list-style-type: none"> <input type="checkbox"/> Approved by Council/Board <input type="checkbox"/> Included in Capital Improvement Plan/Slated for Construction & Implementation <input type="checkbox"/> Grant Completed & Submitted <input type="checkbox"/> Letting/Contractor Selected <input type="checkbox"/> Notice to Proceed Issued <input type="checkbox"/> Construction Underway <ul style="list-style-type: none"> <input type="checkbox"/> Anticipated Completion Date: _____ <input type="checkbox"/> Other (please specify): _____ <input type="checkbox"/> Completed <input type="checkbox"/> Project Delayed <input type="checkbox"/> Project Cancelled	

SUMMARY OF PROJECT PROGRESS FOR THIS REPORT PERIOD

What was accomplished during this reporting period for this project?

Were any obstacles, problems or delays encountered? Yes No Don't Know

If Yes, please describe:

If the project was delayed, is it still relevant? Yes No Don't Know

If Yes, should the project be changed/revise?

Mitigation Project Funding – IEMA-OHS/FEMA Grants

The County's Multi-Jurisdictional Hazard Mitigation Plan will include projects that are fundable through IEMA-OHS/FEMA in addition to projects that might be fundable through other state/federal agencies.

IEMA/FEMA Grants

If you are considering a project that may be fundable through one of IEMA-OHS/FEMA's mitigation grant programs (FMA – Flood Mitigation Assistance, BRIC – Building Resilient Infrastructure & Communities, or HMGP – Hazard Mitigation Grant Program), then the first step is to contact IEMA to discuss the eligibility of your project, deadlines, requirements, etc. before you begin preparing a grant application. Below is the contact information for IEMA's Mitigation Program.

Sam Al-Basha
State Hazard Mitigation Officer
Illinois Emergency Management Agency and Office of Homeland Security
Division of Recovery
Tel: (217) 785-9942
Email: sam.m.al-basha@illinois.gov

Zachary Krug
Hazard Mitigation Section Manager
Illinois Emergency Management Agency and Office of Homeland Security
Division of Recovery
Tel: (217) 524-6513
Email: Zachary.krug@illinois.gov

Mitigation Project Funding – Non-FEMA Grants

Other State/Federal Grants

Below is an overview of non-IEMA-OHS/FEMA grants that have been used to fund mitigation projects. This overview is organized by type of project. Contact information and limitations are provided. *In some cases, these grants require a mitigation plan be in place prior to applying for funding.* You can save time by contacting the agency before preparing a grant application. The agency contacts often will provide useful information about conditions, deadlines, and requirements that you will need to know before you begin the grant application process.

Flood Property Buyout

Grant: IDNR Flood Damaged Property Buyout

Scope: Funding to purchase properties damaged by flooding. This program is separate from IEMA's buyout program and will purchase properties that have only been damaged once by flooding. This grant cannot be used to purchase mobile homes or for management costs incurred by the jurisdiction, consultant or contractor.

Limits: Varies depending on the scope of the project. No local match required.

Contact: Illinois DNR, Floodplain Management Section
Ron Davis, Mitigation Manager 217-524-7200

Drinking Water Supplies (fewer than 400 people served)

Grant: Small Systems Compliance Grant (SSCG)

Scope: Funding for equipment, construction, and design and construction engineering necessary to resolve compliance issues for small system community water supplies. A small system is defined as a community water supply that has 100 or less service connections or serves fewer than 400 people. To be eligible, a community water supply must meet the "small system" definition and have:

- 1.) An unresolved Violation Notice; or
- 2.) Compliance Commitment Agreement; or
- 3.) Placement on the Illinois EPA's Division of Public Water Supplies Restricted Status List

Limits: \$200,000. 100% State money with no local match
Only drinking water supplies that have an unresolved violation notice or those on the Illinois Environmental Protection Agency's Restricted Status List are eligible

Contact: Illinois EPA, Division of Public Water Supplies
Permit Section 217-782-1724 or Compliance Section 217-785-0561

Wastewater Treatment Facilities

The following two loans are listed because of their widespread use and popularity:

Grant: State Revolving Loan Fund

Scope: Low cost loans to replace or upgrade wastewater treatment facilities

Limits: \$200 million (varies depending on scope of project)

Contact: Illinois EPA, Bureau of Water
217-782-2027

Mitigation Project Funding – Non-FEMA Grants

Grant: Clean Water Initiative
Scope: Low cost loans to replace or upgrade wastewater treatment facilities
Limits: \$1 billion (varies depending on scope of project)
Contact: Illinois EPA, Bureau of Water
217-782-2027

Water and Waste Disposal Programs

Grant: Strategic Economic and Community Development
Scope: Funding for drinking water and wastewater treatment facility projects in rural areas (i.e., replacement of water towers, upgrading lift stations, etc.) which support the implementation of a qualified multi-jurisdictional plan
Limits: \$100,000 ceiling
Located solely in a rural area
Federal is 75%, local share is 25%
Contact: USDA Rural Development – Illinois
309-342-5138 Ext. 4

Community Facilities

Grant: Strategic Economic and Community Development
Scope: Funding to develop essential community facilities in rural areas (municipally-owned and operated facilities that provide an essential service to the local community, i.e. public facilities, public safety services, etc.)
Limits: \$25,000 ceiling
Located solely in a rural area
Federal is 75%, local share is 25% (when located in a rural community having a population of 5,000 or fewer)
Contact: USDA Rural Development – Illinois
309-342-5138 Ext. 4

Infrastructure (Generic)

Grant: Community Development Assistance Program (Community Development Block Grant)
Scope: Acquisition, construction, rehabilitation and installment of infrastructure such as water treatment facilities, government services, roads, etc.
Limits: \$550,000 ceiling
Population must be less than 50,000
Fifty-one percent of affected population must be moderate-to-low income persons
Contact: Illinois Department of Commerce and Economic Opportunity

The Notice of Funding Opportunity for State of Illinois grant programs can be found online at <https://www2.illinois.gov/sites/GATA/Grants/SitePages/CSFA.aspx>

Announcements

Open Space Lands Acquisition and Development (OSLAD) is now accepting applications. Please review the Notice of Funding Opportunity and manual on the [OSLAD Program Page](#). The deadline to apply is August 31, 2023.

UPDATE: We are no longer able to review and provide feedback on the merits of projects. We are now limited to answering specific eligibility questions. ****Please do not contact grant administrators to schedule pre-application phone calls.****

Resources

- [How to Apply \(PDF\)](#)

All grants administered by the Department, including other grants not listed below, are subject to available funding.

Funding Information

[Grants Administered by the Illinois Department of Natural Resources \(Listing\)](#)

The following links will take you directly to those sections on our website. See Current Funding Opportunities on Sidebar.

- **Recreational Grants-in-Aid Programs** - Provides grants for capital improvements to create and/or enhance recreational amenities. These include **OSLAD/Federal LWCF**, **Boat Access**, **PARC**, and **Trails Programs** including **Bikeway**, **Snowmobile**, **Off-Highway Vehicle**, and **Federal Recreational Trails Program**.
- **Museum Capital Grants** - Provides grants to help public museums in Illinois expand and upgrade facilities and create new exhibits and other physical facilities to enhance public museums' abilities to meet their mission.
- **Certified Local Government Grants** - Provides grants to **eligible communities** to develop and sustain historic preservation programs and complete projects that preserve local historic resources.
- **Clean Vessel Act Grants** - Provides grant funding to marinas, boatyards, and local units of government to purchase pump outs or dump stations to prevent pollution through the proper disposal of sewage from recreational boats.
- **Illinois Conservation Foundation Educational Grants** - Provides funding to K-12 teachers for biodiversity-related and historic site field trips with their students. Funding is also available for Schoolyard Habitat projects.
- **Volunteer Fire Assistance Grant Program (VFA Program)** - Provides grants to volunteer fire departments for training or equipment purchases for Illinois communities with fewer than 10,000 residents.
- **Special Funds Grant Program** - Provides grants to protect, acquire, enhance and/or manage wildlife habitat through the Illinois Habitat Fund, State Pheasant Fund, State Furbearer Fund and the Migratory Waterfowl Stamp Fund. Funded by Illinois sportsmen through the purchase of **Habitat and Migratory Waterfowl Stamps**.
- **Illinois Coastal Management Program Grants** - Provides grants to local governments and non-profits along the Illinois Lake Michigan shoreline to protect, restore, and manage the Illinois Lake Michigan Coast for current and future generations.
- **Illinois Natural Areas Stewardship Grants** - Provides grants to Conservation Land Trust non-profits for stewardship on Illinois Nature Preserves and registered Land and Water Reserves.
