

# North Prospect Road

## Complete Streets Reconstruction

### Project Overview

**EST \$37.25MM**

This Complete Streets proposal utilizes transportation infrastructure to catalyze community and economic development along a key commercial and cultural corridor in the Village of Peoria Heights and the City of Peoria.

#### KEY THEMES

- Public Parks
- Employment Connections
- Economic Development Catalyst
- Bicycle and Pedestrian Facilities

### Segments

- 1 Supplemental Pedestrian Enhancements**  
extending from Kingman Avenue to the northern Peoria Heights village limits
- 2 Northern Section Roadway Reconstruction**  
Complete Street redesign extending from W. War Memorial Drive north to Kingman Avenue in the Village of Peoria Heights
- 3 Southern Section Roadway Reconstruction**  
Complete Street redesign extending from W. War Memorial Drive south to N.E. Glen Oak Avenue in the City of Peoria

# Project Description

## North Prospect Road | Complete Streets Reconstruction

The Peoria Heights downtown area has experienced tremendous revitalization in recent years, refashioning itself into a cultural and social hub with abundant restaurants, services, and boutiques. Businesses along Prospect Road form the cornerstone of this renaissance; this project leverages Complete Streets principles to further stimulate revitalization activities in Peoria Heights and to encourage their extension southward into disadvantaged, unimproved areas of the corridor.

This Complete Streets project proposes redesign, reconstruction, streetscaping, and accessibility improvements along an essential corridor that extends through downtown Peoria Heights south to Glen Oak Park, Luthy Botanical Gardens, Peoria Zoo, Children's Playhouse Museum, and proposed new connections to the Rock Island Trail.

### Quick Facts

#### Project Type

- Roadway Redesign and Reconstruction
- Multi-Modal Network Expansion

#### Jurisdictions

- City of Peoria
- Village of Peoria Heights
- Greater Peoria Mass Transit District
- Peoria Park District

#### Districts

- US Congressional District 17
- Illinois State House District 92
- Illinois State Senate District 46

## Next Steps

### Benefit-Cost Analysis (BCA)

Conduct a project-wide assessment to demonstrate the project's financial benefits.

### Phase I Reconstruction

Finalize designs and seek funding to support the project's Phase I reconstruction.

### Phase II Redesign

Complete a corridor study and conduct preliminary engineering for the Phase II segment.

### Pedestrian Enhancements

Design and construct new pedestrian and bicycle infrastructure.
