PEORIA — An informational booklet will be mailed to all city homeowners this week that includes a sample of the property owner's stormwater utility bill.

The mailer will give property owners a chance to get the details they need — especially those without access to information online.

Homeowners with questions or concerns should call the city's public works department at 494-8800 or visit [www.peoriastormwater.com](http://www.peoriastormwater.com).

The city will mail out the first round of three-month bills in July. The utility went into operation June 1.

The utility seeks to raise \$4 million over the last half of 2018, money to be used to tackle a backlog of stormwater projects across the city.
