Introduction

The Tri-County Regional Planning Commission was established to promote intergovernmental cooperation, regional planning, and a vision for the future. The Commission exists to serve the residents of Peoria, Tazewell and Woodford Counties by offering a forum for leaders of local government, and to develop a vision for the future by defining regional issues, setting goals, and cooperatively implementing plans. The Tri-County Regional Planning Commission is the “Steward of the Regional Vision.”

The members of the Tri-County Regional Planning Commission are:

The Tri-County Regional Planning Commission was named the Metropolitan Planning Organization for the Peoria/Pekin Urbanized area by the governor of Illinois in 1976. TCRPC has delegated the responsibilities of the MPO to the Peoria/Pekin Urbanized Area Transportation Study (PPUATS). With the responsibilities of the Metropolitan Planning Organization (MPO), PPUATS provides technical and policy level decision-making leadership for transportation planning and programming within the urbanized area and the 20-year growth area.

The PPUATS organization comprises two committees. The Policy Committee directs the transportation planning activities of the urbanized area. It is responsible for adopting and implementing policies and plans to meet federal guidelines, including but not limited to the Long Range Transportation Plan, the Transportation Improvement Program, and the annual Unified Work Program. It is composed of elected leaders from the major jurisdictions in the urbanized area.

The Technical Committee works under the direction of the Policy Committee. It provides the technical expertise to the process and prepares, reviews, and recommends actions to the Policy Committee for their approval. The Technical Committee is composed of staff from the participating jurisdictions.

The membership of the Policy and Technical Committees can be found on the following page.

FY18 Unified Work Program

The Unified Work Program (UWP) identifies the funds and activities to be conducted by PPUATS during the period July 1, 2017 to June 30, 2018 (FY18). The UWP coordinates planning related to highways, transit, and other surface transportation modes. The development of the UWP was coordinated with the PPUATS Policy Committee, the PPUATS Technical Committee, the Greater Peoria Mass Transit District, and the Illinois Department of Transportation.

Funding

The UWP includes federal funding for transportation planning provided by FHWA Section 5305(d) and FTA Section 5305(e). It also includes the local match provided by the PPUATS member communities. The total amount of funding available for FY18 is:

Description	Federal (80%)	Local (20%)	Total

Work Program

Specific transportation planning tasks to be undertaken by the MPO in FY16 are organized into four major categories:

- Task 1: Management and Administration
- Task 2: Data Development and Maintenance
- Task 3: Long Range Planning
- Task 4: Short Range Planning

This Work Program was developed using the ten Planning Factors found at 23 CFR 450.306. The Planning Factor or Factors addressed by each Task on the following pages are indicated in parentheses after the Task Description. The Planning Factors are identified by its two-letter abbreviation.

- Support Economic Vitality of the Metropolitan Area **EV**
- Increase Transportation System Safety for Motorized and Non-Motorized Users **SS**
- Increase Transportation System Security for Motorized and Non-Motorized Users **TS**
- Increase Accessibility and Mobility of People and Freight **AM**

Ladders of Opportunity

The FTA has established a program, known as Ladders of Opportunity, to expand transit service for the purpose of connecting disadvantaged and low-income individuals, veterans, seniors, youths, and others with local workforce training, employment centers, health care, and other vital services.

The Goals of the Ladders of Opportunity Program are:

- **Enhancing access to work** for individuals lacking ready access to transportation, especially in low-income communities;
- **Supporting economic opportunities** by offering transit access to employment centers, educational and training opportunities, and other basic needs; and
- **Supporting partnerships and coordinated planning** among state and local governments and social, human service, and transportation providers to improve coordinated planning and delivery of workforce development, training, education, and basic services to veterans, seniors, youths, and other disadvantaged populations.

The Tri-County Regional Planning Commission and the Peoria/Pekin Urbanized Area Transportation Study have, and will continue, to embrace this goal. In the past, TCRPC was the Designated Recipient for Job Access Reverse Commute (JARC) funds and New Freedom funds in the urbanized area. TCRPC is currently the co-designated recipient, along with IDOT-DPIT, for FTA Section 5310 funds.

Tasks included in this UWP that address the goals of the Ladders of Opportunity Program are:

- Implement the Human Service Transportation Plan (HSTP) for the urbanized area
- Develop a plan to provide transit and para-transit services in those areas of the urbanized area that are not served by a public transit system
- Program FY15 and FY16 FTA 5310 funds based on the goals of the HSTP
- Provide planning and technical support to transit and para-transit providers
- Enhance CityLink routes and schedules in Google Maps

EXHIBIT V: Accounting Narrative

Program Year FY18

PPUATS funds are administered by the Tri-County Regional Planning Commission as follows:

Separate accounts have been established in the general ledger. The account records identify the receipt and expenditure of funds for each grant and/or provide documentation that support the entry and provides accurate and current financial reporting information.

Costs within the accounting system are classified into the following groups:

- 1.** Direct labor costs
- 2.** Non-labor costs directly related to a specific program
- 3.** Indirect costs (both labor and non-labor)

Direct labor hours are charged to the specific general ledger account and work elements within that account based upon actual work hours spent. Work elements of the UWP are numerically coded and are utilized in preparing staff time sheets. The payroll computer printout accumulates staff names, hours, and cost for each work element within the grant account. Non-labor costs are those incurred as being directly related to a specific program, e.g., Transportation. Typical non-labor costs directly chargeable to the appropriate programs include:

- Costs of good acquired, consumed or expended specifically for the purpose of the grant,
- Services and contractual items specifically related to the grant program

These costs are chargeable to the appropriate grant program based on source documentation maintained by the accounting system evidencing the nature and purpose of the charges. Once charged to the transportation program these costs will be distributed to the various program work elements according to the proportion of direct salaries charged to each work element during the period.

The indirect costs (labor and non-labor) are those incurred which cannot be directly associated with the transportation program, but which support the overall functioning of the Commission. These costs are charged to an indirect cost account. The indirect cost rate utilized in the budget is a projection based upon anticipated activity, as well as historical experience. The Indirect Cost Rate for FY18 has been approved by IDOT.
