

AGENDA

Peoria-Pekin Urbanized Area Transportation Study (PPUATS) Technical Committee

Wednesday, September 18, 2019 at 9:00 am
456 Fulton St., Suite 420
Peoria, IL 61602

-
1. Call to Order
 2. Roll Call
 3. Public Comment
 4. Approval of Minutes, August 21, 2019 Meeting
 5. Recommend to Policy Committee August Financial Report and Performance Report – *Memo*
 6. **Public Hearing – Transportation Improvement Program FY 2020-2023**
 7. Recommend to Policy Committee FY 20-23 Transportation Improvement Program – *Attachment*
 8. Discussion of Surface Transportation Block Grant (STBG/STU) funds – *Memo*
 9. Discussion of Special Transportation Planning Studies and State Metro Planning funds
 10. Updates
 - a. Long-Range Transportation Plan
 - b. IDOT Local Roads
 11. Other
 - a. Next meeting scheduled for October 16, 2019
 12. Adjournment

The MPO receives federal funding and may not discriminate against anyone on the basis of race, color, or national origin according to Title VI of the Civil Rights Act of 1964. For more information or to obtain a Title VI complaint form, call 309-673-9330.

Tri-County Regional Planning Commission strives to provide an environment welcoming to all persons regardless of physical or mental challenges, race, gender, or religion. Please call 309-673-9330 to request special accommodations at least two business days in advance.

MINUTES

Peoria-Pekin Urbanized Area Transportation Study (PPUATS)

Technical Committee

Wednesday, August 21, 2019 at 9:00 am
456 Fulton St., Suite 420
Peoria, IL 61602

1. Call to Order

Chairman Andrews called the meeting to order at 9:05 am

2. Roll Call

Member	Present	Absent	Member	Present	Absent
Amy Benecke-McLaren, Peoria County	x		Dustin Sutton* Peoria Heights		x
Jeff Gilles, Peoria County	x		Ed Andrews, City of Washington	x	
Keith Munter, Peoria County*		x	Jon Oliphant, City of Washington*	x	
Craig Fink, Tazewell County	x		Patrick Meyer, Village of Bartonville	x

Josie Esker,* City of Pekin		x	Joe Alexander*, CityLink	x	
Rick Semonski, City of East Peoria	x		Gene Olson, MAAP		x
Ty Livingston, City of East Peoria	x		Eric Miller, TCRPC	x	
Mike Casey, Peoria Heights	x		Rich Brecklin, Village of Germantown Hills	x	

Staff: Michael Bruner, Reema Abi-Akar, Ryan Harms, Andrew Hendon, Britney West, Ray Lees, and Nikita Kapil. Also, present: Curtis Jones-IDOT, Simon Alwan-IDOT, Ken Park-IDOT and Lucinda Loos-Hanson

3. Public Comment-none
4. Approval of Minutes, July 17, 2019 Joint Meeting
 Moore moved to approve the July 17, 2019 Joint Meeting minutes and Casey seconded. Moore said the last 4 bullet points in #6 should be moved to #7. Moore approved the amended minutes correction. Motion carried as amended.
5. Recommend to Policy Committee July Financial Report and Performance Report – *Memo*
 Fink moved to approve Policy Committee July Financial Report and Performance Report and Brecklin seconded. Motion carried.
 Harms updated the total budget for FY20 is \$825,104 and as of the end of July 2019, PPUATS has expended approximately 9% of its budget.
6. Recommend to Policy Committee TIP Amendment Camp St/River Rd Intersection – *Attachment*
 Semonski moved to recommend to Policy Committee TIP Amendment Camp St/River Rd Intersection and Meyer seconded. Motion carried.
 Harms proposed the modification of Camp St. and River Road to revise project cost as a result of changing the selected alternate for intersection improvements.
 - Livingston said it is the same intersection and that they have met with IDOT with the changes.
 - Semonski asked what happens with the money?
 - Simon Alwan- IDOT said the money will be used elsewhere. You will not lose it.
 - Andrews asked what the timeline will be? Alwan said until June 2020.
 - Livingston said he wanted to bring to Technical, so the committee has enough notice of the change.
 - Andrews said he would like to defer for decision until the Capitol Bill is announced.
 - Livingston said they are not interested in delaying.
7. Recommend to Policy Committee Peoria TIP Amendments – *Attachment*
 - a. PEO-19-04 Willow Knolls Pedestrian Improvements
 Harms said this TIP Amendment is withdrawn.
 - b. PEO-20-06 Section 130 Rail Upgrade – Alta Ln
 McLaren moved to recommend to Policy Committee and Casey seconded. Motion carried.
 Harms said the CO requests this be added to PPUAT's TIP
8. Recommend to Policy Committee Special Transportation Planning Studies – *Handout*
 No recommendation chose to defer
9. Presentation of FY2020-23 Transportation Improvement Program – *Handout*
 Harms said this the presentation of the Policy Committee Special Transportation Planning Studies. Note: Project Listings.
10. Updates
 - a. Long-Range Transportation Plan
 Harms updated the staff is meeting weekly to create the LRTP

Miller added to give time within our own area to have projects funded.

b. IDOT Local Roads

Simon Alwan-IDOT anxiously waiting for Capitol Program

11. Other

a. Next meeting scheduled for September 18, 2019-ok

McLaren announced APWA- Snow Rodeo September 13, and APWA Conference updates.

Meyers thanked Tri County staff on great job done on guardrail inventory.

12. Adjournment

Casey moved to adjourn and Brecklin seconded. Motion carried.

Submitted by:

Eric Miller

Executive Director

DRAFT

MEMORANDUM

TO: PPUATS Technical Committee

FROM: Staff

SUBJECT: August 2019 Financial Report and Performance Report

DATE: September 18, 2019

Action needed by Technical Committee:

Recommend to Policy Committee approval of August 2019 Financial Report and Performance Report.

Background:

The total budget for FY20 is \$825,194. As of the end of August 2019, PPUATS has expended approximately 17% of its budget.

FY20 PL/FTA Budget – August 2019

	FY20	Aug-19	YTD	% USED YTD	REMAINING
Salaries	\$315,160	\$32,763	\$61,170	19%	\$253,990

PPUATS MONTHLY PERFORMANCE REPORT

August 2019

Management and Administration

- Hosted meetings of PPUATS Technical and Policy Committees
- Prepared financial records and developed drawdown request for IDOT funds
- Attended Peoria Chamber Transportation Committee meeting
- Attended Pekin Chamber Transportation Committee meeting
- Participated in monthly conference call of statewide HSTP Coordinators
- Attended CityLink Board meeting
- Participated in CityLink ADA Committee

Data Development and Maintenance

- Continued to maintain regional GIS data
- Continued development of regional pavement management system
- Continued regional GIS guardrail inventory
- Continued work on TCRPC/PPUATS website updates
- Responded to technical assistance requests for GIS

Long Range Planning

- Continued to implement Regional Bicycle Plan
- Monitored application for automated driving systems demonstration grant
- Met weekly for 2020-2045 Long-Range Transportation Plan development and coordination

Short Range Planning

- Evaluated project eligibility for FY20 Special Transportation Planning Studies
- Monitored and made administrative changes to TIP
- Continued development of FY20-23 Transportation Improvement Program

Peoria-Pekin Urbanized Area Transportation Study

DRAFT DRAFT DRAFT DRAFT DRAFT DRAFT

Transportation Improvement Program

Fiscal Years 2020-2023

The PPUATS FY2020-2023 Transportation Improvement Program is prepared by TCRPC staff in collaboration with PPUATS member agencies.

Executive Summary

Prepared By:

Peoria Pekin Urbanized Area Transportation Study
456 Fulton, Suite 401
Peoria, IL 61602

The Transportation Improvement Program (TIP) is prepared annually by the Peoria/Pekin Urbanized Area Transportation Study (PPUATS). The TIP represents the programming of transportation improvements for the Peoria/Pekin Metropolitan Planning Area beginning July 1, 2019.

The preparation of this report has been financed by the U.S. Department of Transportation and the Illinois Department of Transportation.

The FY 2020-2023 Transportation Improvement Program (TIP) is a four-year program of highway and transit projects developed to fulfill the requirements set forth in the FAST Act. The purpose of this document is to identify all street/highway and transit projects plus related enhancement projects programmed from FY 2020 through FY 2023 in the Peoria-Pekin Urbanized Area Transportation Study (PPUATS) Metropolitan Planning Area, and to offer the public an opportunity to comment.

The FY 2020-2023 TIP is a result of the comprehensive, coordinated, and continuing (3-C) urban transportation planning process within the Peoria/Pekin Metropolitan Planning Area. The programs listed in the FY 2020-2023 TIP have been locally approved by PPUATS to receive federal funding. All projects are funded with federal, state, and local funds. Local funds include funding from municipalities, counties, and/or public transportation providers.

Annual MPO Certification

In accordance with 23 CFR 450.334 (b), the planning process in the Peoria-Pekin Urbanized Area was certified by USDOT in June 2018.

In accordance with 23 CFR 450.334, the Illinois Department of Transportation and the Peoria-Pekin Urbanized Area Transportation Study, Metropolitan Planning Organization for the Peoria-Pekin Urbanized Area, hereby certify the metropolitan transportation planning process is being carried out in accordance with all applicable requirements including:

1. 23 U.S.C. 134, 49 U.S.C. 5303, and 23 CFR 450 Subpart C;
2. In non-attainment and maintenance areas, Sections 174 and 176 (c) and (d) of the Clean Air Act as amended (42 U.S.C. 7504, 7506 (c) and (d) and 40 CFR 93);
3. Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21; Executive Order 13166(Limited English Proficiency) and Executive Order 12898(Environmental Justice);
4. 49 U.S.C. 5332, Section 324 of title 23 U.S.C. and the Older Americans Act (as amended 42 U.S.C. 6101) prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
5. Section 1101(b) of the SAFETEA-LU (pub. L. 109-59) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects;
6. 23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
7. The provision of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and 49 CFR parts 27, 37 and 38, and Section 504 of the Rehabilitation Act of 1973(29 U.S.C. 794) regarding discrimination against individuals with disabilities.

Signed,

Barry Logan, Chairman
PPUATS Policy Committee

Holly Ostdick, Bureau Chief of Urban Program Planning
Illinois Department of Transportation

Date

Date

Introduction

The Tri-County Regional Planning Commission (TCRPC) is designated as the Metropolitan Planning Organization (MPO) for the Peoria/Pekin Metropolitan Planning Area. TCRPC has delegated the responsibilities of the MPO to the Peoria-Pekin Urbanized Area Transportation Study (PPUATS).

The Urbanized Area?

The Census Bureau defines an Urbanized Area as “a densely settled [area] that meets minimum population density requirements, along with adjacent territory containing non-residential urban land uses as well as territory with low population density included to link outlying densely settled territory with the densely settled core.”

Our urbanized area includes larger communities like Peoria and Pekin, as well as smaller communities like Bartonville and Germantown Hills.

What is PPUATS?

PPUATS comprises two groups: a **Policy Committee** and a **Technical Committee**.

The **PPUATS Policy Committee** is made up of elected officials representing their respective communities. The Policy Committee determines transportation policy within the framework of the urban transportation planning process. The Policy Committee must vote on the Technical Committee recommendations.

The **PPUATS Technical Committee** is made up of individuals appointed by their respective PPUATS communities. Most representatives are public works and/or engineering staff. Throughout the year the Technical Committee reviews and recommends planning policies and measures to the Policy Committee.

PPUATS membership includes municipalities and counties, the Peoria International Airport, the Greater Peoria Mass Transit District, and the Illinois Department of Transportation (IDOT). The Federal Highway Administration and IDOT’s Planning and Programming office are advisory members.

Planning Area

The Metropolitan Planning Area (MPA) is the full jurisdictional area of PPUATS. The MPA is composed of the Peoria Urbanized Area (explained below) and land outside the Urbanized Area likely to become urbanized in the next 20 to 25 years.

The Peoria-Pekin Urbanized Area (UA) is defined by the Census Bureau and represents the built-up core of the Greater Peoria region. PPUATS creates its own Adjusted Urbanized Area for the purposes of transportation planning. The Adjusted UA includes the Census Bureau’s UA, small areas necessary to round-off jagged or irregular boundaries, other contiguous areas that PPUATS considers to be urbanized, and areas likely to be developed within the next five years.

The most recent PPUATS Adjusted UA was adopted in May 2014. The Adjusted UA is used primarily to determine which roadways are eligible for federal urban funding assistance. Roadways inside the MPA but outside the Adjusted UA are eligible for rural funding assistance. A map of the Adjusted UA and MPA is included in Appendix A.

TIP Process and Funding Authorization

The FY2020-2023 TIP includes summaries of federally-funded transportation projects to be implemented each year of a four-year period. These projects have been identified for funding from the FY 2015-2040 Long-Range Transportation Plan, which was adopted March 2015.

The TIP is financially constrained, meaning that all projects listed in the present year (FY2020) have verified funding sources. In addition, the three subsequent years' listings (FY2021, FY2022, and FY2023) have "reasonably available" funding sources associated with them.

The existing transportation system within PPUATS is being adequately operated and maintained with resources that are provided through federal, state, and local jurisdictions. All funding estimates in this document are based on anticipated state, federal, and local sources for the region. It is anticipated that funding will be available for all projects included in the TIP.

Seven Planning Factors

The MPO's overall transportation planning goal is to provide for the adequate, safe, and efficient movement of persons and goods in the urban area. In concert with the *FAST Act*, the current federal transportation bill, the MPO utilizes the seven thematic areas included to help reach this goal:

- Safety
- Infrastructure condition
- Congestion reduction
- System reliability
- Freight movement and economic vitality
- Environmental sustainability
- Reduced project delivery delays

What is the FAST Act?

The Fixing America's Surface Transportation Act is the latest funding and authorization bill to govern US federal surface transportation spending. This latest "highway bill" was signed by President Obama on December 4. The bill authorizes \$305 billion in federal money to be spent on surface transportation. PPUATS and MPOs throughout the country receive a portion of that money via the State Department of Transportation to program for roadway, transit, and bicycle/pedestrian infrastructure projects in the MPA.

Public Involvement Process

To the greatest extent possible, PPUATS strives to make all documents and information readily available to the public. Upon completion, drafts copies of the TIP are distributed to 36 sites located throughout the urbanized area for public review. Extra copies of the Draft TIP are available for the public at the Tri-County Regional Planning Commission (TCRPC) office and online at <http://www.tricountyrpc.org>. Draft copies of the TIP may also be mailed to individuals and/or organizations by request.

Public notices announcing the review of all PPUATS documents are published in both the Peoria Journal Star and Pekin Daily Times for three (3) days. The public review period is thirty (30) days. PPUATS' 20 public review sites are selected to ensure accessibility to all, including the area's minority populations, low-income populations, and people with disabilities. All public review sites are accessible by mass transit. A complete list of public review sites is located in Appendix E.

During the 30-day public review period, at least three (3) public hearings are held. All public hearing locations are selected with appreciation of the need to accommodate persons with disabilities. Verbal comments and written submissions presented at the

public hearings are generally responded to immediately or the topic is continued for later response. Minutes are compiled for all public hearings, where public comments and responses are recorded therein.

However, if an individual and/or organization would like more time given to address a specific item in the draft TIP, it is recommended that the individual and/or organization contact TRCPC at least two (2) weeks ahead of the scheduled public hearing at which they would like to speak. Appropriate time will then be afforded on the agenda at the meeting for their presentation.

PPUATS accepts input and comments from the public through a variety of means:

- A. Members of the public may make comments by calling the Tri-County Regional Planning Commission at (309) 673-9330.
- B. Written comments may be:
 - 1. Emailed to: info@tricountyrpc.org
 - 2. Mailed or hand delivered to:
TCRPC
456 Fulton Street, Suite 401
Peoria, Illinois 61602
- C. The public may submit comments to their respective PPUATS representative(s) for

transmittal to the respective full committees.

- D. Comments on the draft TIP may be made at Public Hearings. PPUATS ensures that all Public Hearing locations are accessible in accordance with the Americans with Disabilities Act.
- E. Time scheduled on Tri-County Regional Planning Commission agenda or PPUATS agenda may be requested by members of the public or a representative of a group, to offer input to the full committees.
- F. General comments by the public and/or organizations can be made at any PPUATS meetings. All PPUATS meetings are open to the public and public comment is allowed on all matters. Open discussion, under "Public Comment" is permitted on any transportation-related matter at every meeting.

PPUATS responds to all public input received during the planning and program development of the TIP. These documents are not adopted and are not considered complete until all comments are responded to or changes have been made to the documents to accommodate the comments.

TIP Revisions

In certain cases, a revision to a project must occur between regular TIP updates. Revisions in these cases fall into two categories: *amendments* which require action by the PPUATS Policy Committee, or *administrative modifications* which are performed by TCRPC staff and require no committee action.

Amendment

An amendment represents a major change to the TIP that requires approval by the PPUATS Policy Committee. Amendments are most often presented to the PPUATS Technical Committee for recommendation for the approval before being sent to Policy. Should a federally-funded project be added to or removed from the TIP, such a change constitutes an amendment. In addition, changes to listed projects constitute an amendment when the amount of federal aid being revised is greater than 30% of the previous amount, when the scope of a project is being changed significantly, or when an additional funding source is being added to a project.

Administrative Modification

An administrative modification represents a minor change to the TIP that does not require approval by PPUATS. Any change that does not represent an amendment, defined above, is considered an administrative modification. Moving a project from one fiscal year to another is considered an administrative modification.

An administrative modification would also be appropriate in the case of advanced construction. Advanced construction is a technique by which the State may initiate a project with non-federal funds while maintaining eligibility for federal aid funds in the future. In such a case, FHWA has indicated that the project qualifies for federal aid, but no present or future federal funds are committed to it. Once the project is authorized for advanced construction, the State may convert it to a regular federal aid project when funds become available. The full project may be converted all at once, or piecemeal as additional funds become available. A project must be included in the TIP to be eligible for advanced construction.

Federally Obligated Projects

TIP documents prepared before the FY 2016-19 TIP included a section containing a “Status of Previously Obligated Federal and State Projects.” The section listed all projects that had received federal funds during the past fiscal year.

Due to conflicts in timing, not all applicable projects would be able to be included in the listing. Because of this, the *Annual Listing of Federally Obligated Projects* is now its own separate document. The document is traditionally released after September 30th. Any person requesting a copy of the *Annual Listing of Federally Obligated Projects* may contact TCRPC or may visit:

<https://tricityrpc.org/transportation/tip/>

Performance-Based Planning and Performance Measures

The Moving Ahead for Progress in the 21st Century (MAP-21) transportation bill, passed in 2012, established a national performance measurement system for the highway and transit programs. Based on this policy change, the U.S. Department of Transportation (USDOT) established performance measures for four areas:

- Safety
- Infrastructure
- System Performance
- Transit Asset Management

The state departments of transportation (state DOTs) and metropolitan planning organizations (MPOs) are required to establish targets for each highway performance measure while transit agencies and MPOs set targets for transit asset condition.

For most of the highway measures, MPOs can either choose to set quantitative targets for their metropolitan planning areas or commit to the state’s targets. For the highway measures, at the conclusion of each performance period, the USDOT assesses whether “significant progress” has been made toward achieving the highway targets, which is defined differently depending on the measure. If states do not make significant progress, they are required to submit documentation to FHWA on how they will reach the targets; in certain cases, states are also required to program more federal funds toward improving conditions. No penalties are assessed on MPOs or transit agencies.

As part of complying with the national performance measurement system established by MAP-21, IDOT, the MPOs and the transit agencies have established a process for data sharing, target setting, and reporting. An Intergovernmental Agreement for Transportation Performance Management was created to comply with 23 CFR 450.314(h). This Agreement between IDOT, the MPO, and the local transit agency defines rights and obligations for each agency in terms of cooperatively developing and sharing information related to transportation performance management data and transit asset management data, performance target setting, reporting of performance targets, and tracking progress toward attainment of critical outcomes for the MPO region.

Safety

Performance Measure	IDOT Baseline 4-Year Avg (2012-2015)	Basis for Target	IDOT 2018 Target (2014-2018)	PPUATS TIP Project(s) Addressing this Target

Project Listings

Understanding the Listings

The Transportation Improvement Program is divided into two sections based on the type of transportation work to be completed, Surface Transportation projects and Transit projects. Listed on the following pages are all of the federally-funded transportation projects anticipated to occur within the Metropolitan Planning Area over the next four (4) federal fiscal years. The projects are organized by the fiscal year in which they will be implemented or constructed.

All projects are identified by their TIP Number. This three-part number identifies where a project is located within the TIP. First is a letter or letters indicating the agency associated with a given project. S indicates an IDOT State Routes project, L for IDOT Bureau of Local Roads, and two or three letters associated with a municipality (e.g. MO for Morton, PEO for Peoria). A full glossary of these abbreviations may be found in Appendix B. The second part indicates the fiscal year under which a project is listed and the third part identifies each project in the given fiscal year.

Surface Transportation Projects

The programming of highway funds is a major function of IDOT and PPUATS. Federal highway funds come from many sources and programs, including the National Highway Performance Program (NHPP), Surface Transportation Block Grant Program (STBG-U for projects in the urbanized area, STBG-R for projects outside the urbanized area), and Highway Safety Improvement Program (HSIP). Descriptions of these funding programs, their eligibility requirements, and their selection processes (if applicable) may be found in Appendix C.

Multiple sources of federal and state funds are also available for non-motorized transportation projects. Non-motorized transportation most often refers to pedestrians and bicyclists, but may also include other active forms of transportation. Federal funding sources for non-motorized transportation include the Transportation Alternatives Program, Illinois Transportation Enhancement Program (ITEP), and Federal Recreational Trails Program. More information on these programs may be found in Appendix C.

Mass Transit Projects

Mass Transit funds are primarily programmed by the mass transit agency, IDOT, and the Federal Transportation Administration (FTA). The local transit agency, the Greater Peoria Mass Transit District (CityLink), handles a majority of the region's mass transit needs. CityLink's jurisdiction includes the communities of Peoria, Peoria Heights, and West Peoria, and they also serve the communities of East Peoria and Pekin contractually. Other local service providers, typically affiliated with or operated by non-profit agencies, are also eligible to receive federal funds for transit.

Surface Transportation Projects

TIP No.	Year	AC	Project Title	Termini	Funding Sources	Lead Agency	Federal	State	Local/Other	Total	Description
D-20-01	2020	No	Dunlap Valley Middle Safe Routes to School	Near Dunlap Valley Middle School in Dunlap	SRTS	D	\$200,000	\$0	\$0	\$200,000	New Sidewalk, Sidewalk Curb Ramp, Median Refuge/Center Crossing, Crossing Improvements, New/Upgraded Signs, Flashing Beacons, New Pavement Markings, Pedestrian Activated Signal Upgrades, Permanently Mounted Solar Powered Speed Feedback Signs
EP-20-01	2020	No	Camp St and River Rd Roundabout	Intersection	STP-U, Local	EP	\$800,000	\$0	\$200,000	\$1,000,000	Intersection improvements including new pavement, curbs, sidewalk/ bike path, pavement markings, signals, signage and landscaping as required to accommodate new turn lanes or island / median changes
ITEP-18-01	2020	No	Rock Island Greenway	Harvard Ave to Park Ave	ITEP, Local	PEO	\$427,000	\$0	\$80,200	\$507,200	Construction Engineering, improvement of existing rail bridge, recreation trail construction
PC-20-02	2020	No	Kickapoo Creek Rd Structure Replacement	I-474 to SW Adams St	STP-BR, Local	PC	\$1,600,000	\$0	\$780,000	\$2,380,000	Removal and replacement of S.N. 072-3095 on Kickapoo Creek Road, along with removal and replacement of adjacent retaining walls along the Kickapoo Creek.
PEK-20-01	2020	Yes	Pekin Front St	Fayette St to Distillery Rd in Pekin	NHFP, Local	PEK	\$4,664,000	\$0	\$1,166,000	\$5,830,000	Reconstruction

Appendix A – Urbanized Area

Map 1: Peoria-Pekin Urbanized Area

Appendix B – Abbreviations & Glossary

Abbreviations of Entities

Abbr.	Entity
S	State of Illinois
L	Local Roads
PC	Peoria County
TZ	Tazewell County
WC	Woodford County
BA	Village of Bartonville
C	City of Chillicothe
CC	Village of Creve Coeur
EP	City of East Peoria
GH	Village of Germantown Hills
CL	CityLink
MO	Village of Morton
PEK	City of Peoria
PEO	City of Peoria
PH	Village of Peoria Heights
WA	City of Washington
WP	City of West Peoria

Glossary

3-C Process: The Comprehensive, Continuing, and Coordinated (3-C) Planning Process that has been established to develop and maintain effective planning within the Peoria/Pekin urbanized area and the regional 20-year planning area.

20-Year Planning Area: PPUATS mapped out an area beyond the urbanized area that could become urbanized over the next 20 years. This area was selected in the early spring of 2013 (updated every US Census cycle). The current 20 year planning boundary includes the urbanized area along with the municipalities of Chillicothe, Dunlap, Hanna City, Mapleton, Spring Bay, Bay View Gardens, Germantown Hills, Metamora, and Tremont.

Average Daily Traffic (ADT): Indicates the number of vehicles that typically run on a section of road per day. ADT can be done for roadways or turning movements (i.e. number of right turns from Main to University).

Capital Expenses: In mass transit, a capital expense is a purchase of a tangible piece of equipment. New buses or computers serve as examples of capital expenses.

Enhancement: An “enhancement” project serves to enhance the transportation system. Examples include bicycle projects, scenic highway programs, landscaping, historic preservation, rehabilitation of historic transportation buildings, preservation of abandoned railway corridors, control of outdoor advertising, and establishment of transportation museums.

Environmental Justice: Practicing environmental justice means insuring that the effects of transportation planning and projects are appropriately spread throughout the urbanized area.

Environmental Attainment Area: Urbanized Areas that have poor air quality are designated nonattainment areas, which require additional planning from their MPOs. The Peoria/Pekin Urbanized Area is an Environmental Attainment Area.

Fixing America’s Surface Transportation Act (FAST Act): The FAST Act is the federal transportation bill signed into law in December 2015. It replaces the 2012 transportation bill, *MAP-21*. It is the first law enacted in over ten years that provides long-term funding certainty for surface transportation, meaning States and local governments can move forward with

critical transportation projects, like new highways and transit lines, with the confidence that they will have the necessary federal funding.

Federal Highway Administration

(FHWA): FHWA is a branch of the United States Department of Transportation (USDOT) administering highway funds. The majority of the transportation funding that comes to TCRCP comes through FHWA.

Federal Transit Administration (FTA):

FTA is a branch of the United States Department of Transportation (USDOT) administering transit funding. TCRPC transit planning funds come from FTA.

Fiscal Year: The PPUATS fiscal year mirrors the State of Illinois. The fiscal year runs six months ahead of the calendar year. For example, fiscal year 2010 begins on July 1, 2009 and ends on June 30, 2010.

Illinois Transportation Enhancement Program (ITEP):

ITEP was created in response to federal transportation legislation requiring that 10% of all Surface Transportation Program funds be used toward projects serving to enhance the transportation system. Examples of projects include bike routes, historic preservation and transportation museums. Localities wishing to secure ITEP funds must apply to the state and pay a 20% match.

Intelligent Transportation Systems

(ITS): ITS utilize technology to provide safety and efficiency in transportation. Some objectives of ITS include: freeway management, emergency response, incident management, traveler information and traffic signal control. The most common example of ITS is the variable message signs placed along roadways.

Long Range Transportation Plan

(LRTP): Metropolitan Planning Organizations are required to produce a LRTP documenting the vision for the region’s transportation system for the next 25 years. The LRTP shall list transportation projects to be enacted over that timeframe. Surface Transportation Program-Urban (STU) projects are to be listed in the LRTP as well.

Metropolitan Planning Organization

(MPO): An MPO is a regional transportation decision-making body. The federal government requires an MPO for metropolitan areas of 50,000 people or more. The designated MPO for the Peoria/Pekin MA is the Tri-County Regional Planning Commission (TCRPC), which has delegated its duties to PPUATS. MPOs are responsible for determining how federal transportation funds are used. Every transportation project to receive federal funds must be approved by the MPO.

Mode: A transportation mode is the medium used to get from one place to another.

Moving Ahead for Progress in the 21st Century (MAP-21):

was a Federal transportation bill signed into law in 2012. MAP-21 The approval of MAP-21 resulted in the consolidation and elimination of a number of federal aid programs, as well as an increased emphasis on asset management and performance measures. In 2015, MAP-21 was superseded by the *FAST Act*.

National Highway System (NHS):

Network of highways throughout the United States that includes the Interstate Highway System, other principal arterial highways, roads that are important to US defense, and roads that provide access to major intermodal facilities. The NHS includes 4% of the United States’ roads and carries 40% of all US highway traffic.

Operating Expenses:

In mass transportation, an operating expense is the expenditure of funds toward activities (e.g. salaries), as opposed to tangible (capital) items.

Paratransit: The Americans with Disabilities Act (ADA) requires that providers of public transportation provide service to those physically or cognitively unable to utilize fixed-route public transportation. The Greater Peoria Mass Transit District (CityLink) provides those services through CityLift.

Peoria/Pekin Urbanized Area Transportation Study (PPUATS):

PPUATS is the MPO decision-making body. The PPUATS Policy Committee, which makes final decisions, acts on PPUATS Technical Committee recommendations. The committees are made up primarily of municipal and county representatives. The Greater Peoria Mass Transit District (CityLink), Greater Peoria Regional Airport, Illinois Department of Transportation, Federal Highway, and TCRPC staff are also represented.

Proposed Highway Improvement Program:

The Illinois Department of Transportation produces a five-year Proposed Highway Improvement Program for the entire state on an annual basis.

Regional Planning Commission (RPC):

It is important to note that an RPC and an MPO are different organizations. An RPC is meant to serve a particular region and promote intergovernmental cooperation, regional planning, and a vision for the future. Unlike MPOs, RPC duties are not federally mandated and are not particular to transportation.

Transportation Improvement Program (TIP):

While this document’s title is “Transportation Improvement Program,” it is important to note that the TIP is not a document or a listing of projects. It is the result of a process of determining how

millions of federal transportation dollars are to be spent. It is the mechanism that allows implementation of transportation projects. The TIP is programmed four years in advance. All projects within the MA that receive federal transportation funding are to be in the TIP.

Title VI of the 1964 Civil Rights Act:

Title VI of the 1964 Civil Rights Act (42 U.S.C. 2000d-1) states that “no person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance”. It is vital that this be kept in mind during transportation planning activities.

Tri-County Regional Planning Commission (TCRPC):

The Tri-County Regional Planning Commission serves all of Peoria, Tazewell, and Woodford Counties as the Regional Planning Commission (RPC) for the area.

Urbanized Area: The urbanized area is the federally-designated area that is considered to be in the metropolitan area. Along with some unincorporated parts of Peoria and Tazewell Counties, the following municipalities are within the urbanized area: the Villages of Dunlap, Germantown Hills, Bellevue, Norwood, Bartonville, North Pekin, Marquette Heights, Creve Coeur, and Morton;

and the Cities of Peoria, Peoria Heights, West Peoria, Chillicothe, East Peoria, Washington, and Pekin.

Volume to Capacity (V/C) Ratio:

V/C Ratio is a way to determine whether a roadway or intersection is congested. A V/C ratio below 1 indicates that a road is handling traffic below its maximum capacity. A V/C ratio over 1 indicates that a roadway or intersection is handling traffic beyond its intended capacity.

Appendix C – Funding Sources

Federal Funding Sources

Federal Emergency Relief (ERF):

Funding under this program is to aid Federal, State and local highway agencies with unusually heavy expenses of repairing serious damage to Federal-aid highways and roads on Federal lands resulting from natural disasters or catastrophic failures from an external cause.

Highway Safety Improvement Program (HSIP):

MAP-21 Program with purpose to reduce highway fatalities and serious injuries. Requires a 10% state match.

Illinois Major Bridge Program (Major Bridge):

IDOT program allocating Federal STBG funds for local and state bridges that meet eligibility criteria. Program is discretionary and all proposed projects compete for funds statewide.

Illinois Transportation Enhancement Program (ITEP):

Provides STBG funds for community based projects that expand travel choices and enhance the transportation experience by improving the cultural, historic, aesthetic and environmental aspects of our transportation infrastructure. Programmed at the State level, eligible projects include

bicycle trails, scenic roads, and historic preservation efforts.

Major Bridge Program: Set-aside for high-cost bridge projects utilizing NHPP funds (for roadways on the National Highway System) or STP funds (for local roadways).

National Highway Performance

Program (NHPP): MAP-21 program that provides support for the condition and performance of the National Highway System (NHS), for the construction of new facilities on the NHS, and to ensure that investments of Federal-aid funds in highway construction are directed to support progress toward the achievement of performance targets established in a State's asset management plan for the NHS. Interstate highway projects require a 10% match, while other roadways on the NHS require a 20% match.

Recreational Trails Program (RTP):

Provides funds to the States to develop and maintain recreational trails and trail-related facilities for both non-motorized and motorized recreational trail uses. It is administered by the Illinois Department of Natural Resources (IDNR) and requires a 20% local match.

Section 5307: Federal Transit Administration (FTA) capital programs within the urbanized area.

Section 5309: FTA capital funds.

Section 5310: FTA funds for capital and operating, dedicated to transportation for the elderly and for disabled persons.

Surface Transportation Block Grant

Program (STBG): Previously known as the Surface Transportation Program (STP). Federal program providing flexible funding that may be used by States and localities for projects to preserve and improve the conditions and performance on any Federal-aid highway, bridge and tunnel projects on any public road, pedestrian and bicycle infrastructure, and transit capital projects. All STBG projects require a 20% match (sometimes paid by the state and/or locally).

- **Surface Transportation Block Grant Program - Urban (STBG-Urban):** STBG funds aimed to be spent within the planning area of urbanized areas with populations exceeding 200,000. PPUATS receives a portion of these funds to program within the urbanized area, referred to as STU funds.

- **Surface Transportation Block Grant Program - Rural (STBG-Rural):** STBG funds spent outside of the urbanized area.

Transportation Alternatives Program (TAP): Retired federal program that provided funding for programs and projects defined as transportation alternatives, including on- and off-road pedestrian and bicycle facilities, infrastructure projects for improving non-driver access to public transportation and enhanced mobility, community improvement activities, and environmental mitigation; recreational trail program projects; safe routes to school projects; and projects for planning, designing, or constructing boulevards and other roadways largely in the right-of-way of former Interstate System routes or other divided highways. The *FAST Act* retired the TAP, replacing it with a set-aside of STBG funding for Transportation Alternatives (TA).

Transportation Alternatives (TA): Set-aside of Surface Transportation Block Grant (STBG) Program funding for all projects and activities that were previously eligible under TAP, encompassing a variety of smaller-scale transportation projects such as pedestrian and bicycle facilities, recreational trails, safe routes to school projects, community improvements such as historic preservation and vegetation management, and environmental mitigation related to stormwater and habitat connectivity.

State Funds

Funds originating from the State of Illinois most often come from the Illinois Department of Transportation (IDOT). Some IDOT funds may be used as match for federal dollars.

Local Funds

Funds provided by a municipality, county, or transit district. Local funds are most often used for required match to federal dollars.

Other Funds

Any dollars put toward a project not associated with federal, state, local, or transit district funding sources. There are no such funding sources listed in the PPUATS FY2020-2023 TIP.

Appendix D – Environmental Justice

Title VI of the Civil Rights Act of 1964 states that no person shall on the ground of race, color, or national origin be excluded from participation in, denied the benefits of, or subjected to discrimination under any program or activity receiving Federal financial assistance. As a result, all agencies receiving federal assistance must demonstrate compliance with the Title VI requirements.

To reaffirm the Title VI legislation goals, President Clinton signed Executive Order 12898 “Federal Actions to Promote Environmental Justice in Minority Populations and Low-Income Populations” on February 11, 1994. Executive Order 12898 requires each federal agency to make Environmental Justice part of its mission by identifying and addressing disproportionately high and adverse human health or environmental effects of its programs on minority and low-income populations.

Presidential Executive Order 12898 and the derivative US DOT and FHWA Orders required that minority and low-income populations must be treated fairly and equitably, compared to other non-minority and more fortunate higher income populations. In simple terms, this means that as we apply federal programs, use federal funds, and impose federal regulations we:

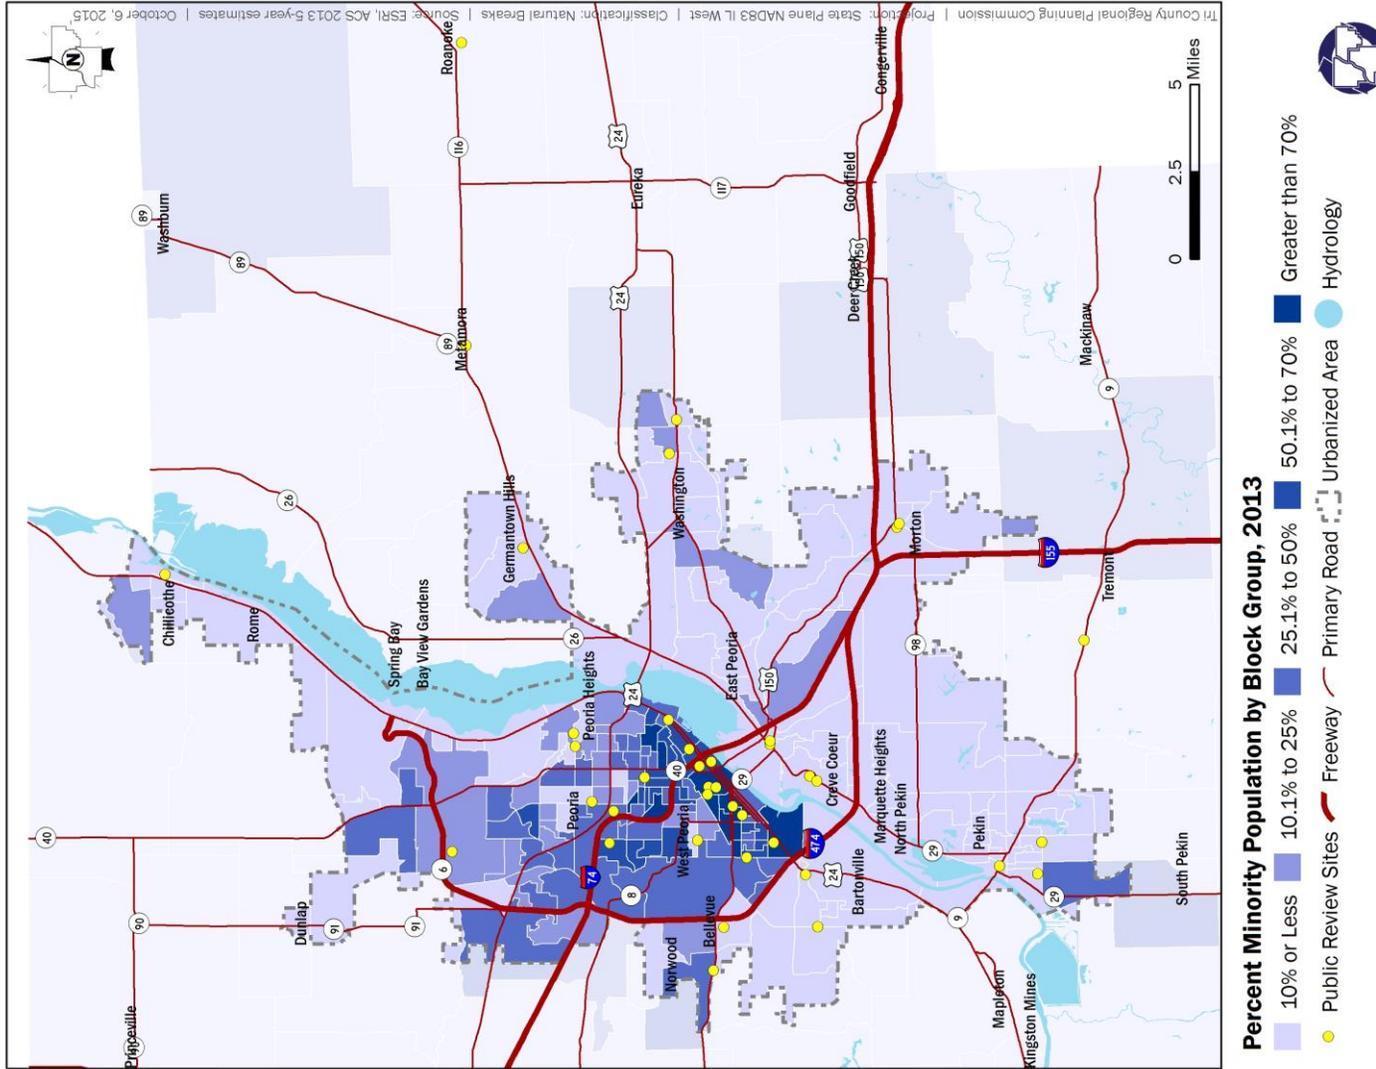

1. Should not allow a disproportionate share of the adverse impacts of activities to fall upon minority and low-income populations;
2. Should make a concerted effort to determine what populations are going to be affected, before we spend any federal funds, implement any federal program, impose any federal regulations, or create or cause any adverse or harmful impacts;
3. Should, periodically, review and analyze our past actions to determine if we are, in fact, treating all groups equitably; and
4. Should make concerted efforts to involve minority and low-income groups in the decision-making process as we plan and program our activities.

The overall goal of the Executive Order is to ensure that all communities and person, across the nation live in a safe and healthy environment. Further, the Order recognizes that many undeniably beneficial public works projects, infrastructure improvements and governmental actions are often accompanied by adverse or undesirable impacts. Therefore, the order seeks to ensure that minorities and low-income communities do not bear the brunt of a project’s adverse impacts while seeing few of the benefits.

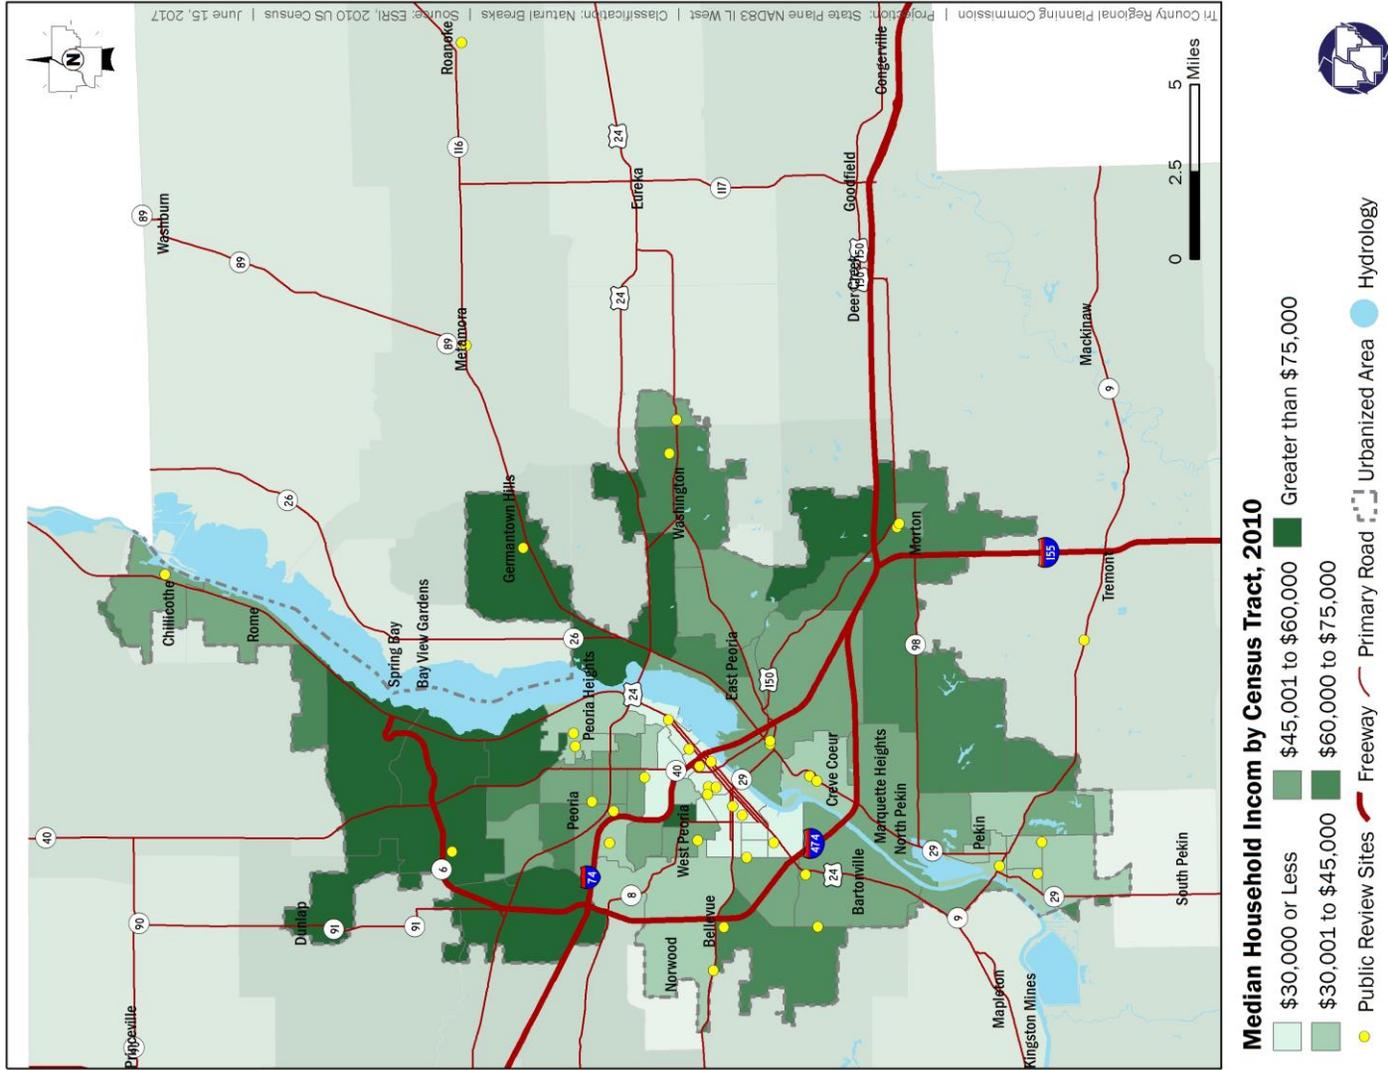

In compliance with the Executive Order, the U.S. Department of Transportation (USDOT) issued its final order on February 3, 1997. The Order described the process to incorporate Environmental Justice principles embodied in the Executive Order into existing programs, policies, and activities. To comply with the U.S. DOT Order, the Federal Highway Administration (FHWA) issued their action statement to address Environmental Justice on December 2, 1998.

As a matter of policy, Title VI/Environmental Justice is incorporated into all of PPUATS transportation planning efforts. PPUATS is committed in taking into account its decision-making on the views of historically underserved constituencies, including minority communities and low-income residents. PPUATS considers Title VI/Environmental Justice while developing the Transportation Improvement Program (TIP). Staff creates maps identifying low income, minority, and elderly populations living within the region. A second set of maps assess the impact of the programmed transportation projects for the respective Fiscal Year. The following pages contain maps showing average household income, distribution of minority residents, and distribution of elderly residents by Census Tract.

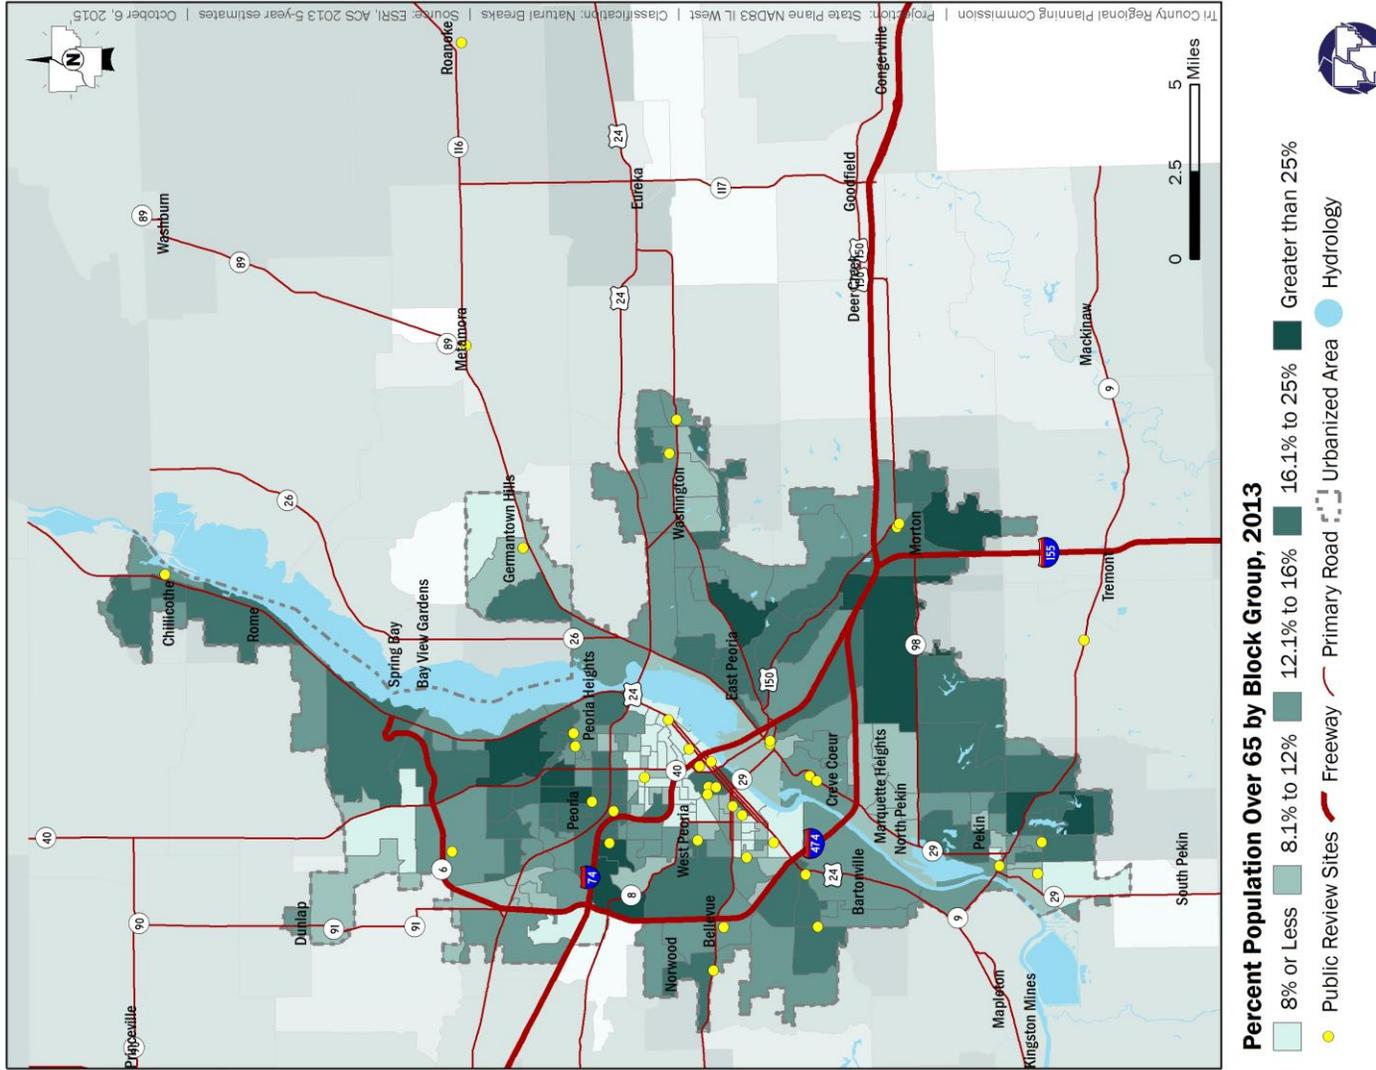

Map 2: Minority Population by Block Group

Map 3: Median Household Income by Census Tract

Map 4: Senior Population by Block Group

Appendix E – Public Involvement

Public Review Sites

The draft TIP will be available for public view and comment at the following locations:

Appendix F – Amendments

Amendments Approved by PPUATS Policy Committee

None yet.

Administrative Modifications

None yet.

MEMORANDUM

TO: PPUATS Technical Committee

FROM: Staff

SUBJECT: Surface Transportation Block Grant (STBG, formerly STU) Funds

DATE: September 18, 2019

Action needed by Technical Committee

Discuss STBG FY 2023-2024 funding round.

Items to be considered

1. Upcoming funding round
 - Staff estimates \$5.8M to be available for FY 23-24 STBG projects.
 - In March 2019, the PPUATS Technical Committee voted to postpone discussion on the FY 23-24 until the State of Illinois released its capital program project list.
 - In September 2019, PPUATS Policy approved a scope and budget change to the Camp St/ River Rd Roundabout, reducing the STBG funding amount to \$800,000 and returning \$2.1M to PPUATS' STBG balance.
2. Resurfacing Set-Aside Pilot Program
 - For FY 21-22, PPUATS established a pilot program by which 20% of its STBG allocation was set aside for resurfacing projects, totaling about \$1.1 million.
 - The set-aside was open to all dues-paying PPUATS members for projects in the urbanized area and required at least 20% local match.
 - No jurisdiction could be awarded both regular STBG funds and resurfacing set-aside funds during the FY21-22 funding round.
 - A jurisdiction that received resurfacing set-aside funds during FY21-22 is not eligible to receive resurfacing funds in FY 23-24, if the program continues.
3. Selection Criteria
 - Existing Roadways
 - New Roadways
 - Resurfacing Set-Aside (if program is continued)

Background

The Peoria/Pekin Urbanized Area Transportation Study (PPUATS) is the Metropolitan Planning Organization (MPO) for the Peoria-Pekin urbanized area. One of the responsibilities of the MPO is to program federal Surface Transportation Block Grant (STBG) funds allocated on an annual basis to the urbanized area through the Illinois Department of Transportation. It is the intent of PPUATS to direct the use of STBG funds toward projects which have regional significance, and which will have benefit to the entire region as a whole, rather than projects which benefit only single communities or small parts of the urbanized area. For FY23-24 funds, staff will facilitate a competitive application process through which PPUATS may prioritize projects for funding.
